

FISCAL YEAR 2024

TRULY AGREED AND FINALLY PASSED
(AFTER VETO)

DEPARTMENT OF CONSERVATION

HOUSE BILL 6

Vetoes: None

**102nd General Assembly
First Regular Session**

Prepared by Senate Appropriations Staff

DEPARTMENT OF CONSERVATION

Section 6.600 – Habitat Management

Page 102

Description: This section includes funding for Habitat Management, which includes oversight of terrestrial and aquatic habitat on public land and helping private landowners manage terrestrial and aquatic habitat on their lands by restoring and maintaining healthy land, water, and forests.

Legal Basis: Article IV, Sections 40 – 46, MO Constitution

Funding Source: Conservation Commission Fund (0609)

FY 2023 GR W/H: N/A

CORE ADJUSTMENTS

The Recovering America's Wildlife Act (RAWA) will fund proactive, voluntary efforts led by states, territories, and tribes to address the nation's looming wildlife crisis and to prevent species from becoming endangered. RAWA will provide \$1.39 billion annually to catalyze on-the-ground, collaborative efforts to restore essential habitat and implement key conservation strategies, as described in each state's Wildlife Action Plan.															
The U.S. House of Representatives passed RAWA (H.R. 2773) with bipartisan support. The U.S. Senate is now considering the Senate RAWA Bill (S. 2372), with bipartisan passage expected to occur this legislative session. Under current legislative language, RAWA funds shall be used for the purpose of avoiding the need to list species, or recovering species currently listed as a threatened species or endangered species, under the Endangered Species Act of 1973 or under State law, with specific directed use to:															
*Implement State Wildlife Action Plans (the Missouri Comprehensive Conservation Strategy (CCS) to recover and manage Species of Greatest Conservation Need (SGCN) and their habitats,															
*Enhance the CCS,															
*Assist in the recovery of state and federally listed species, as well as species proposed and petitioned for listing

Appropriation is needed to expand habitat and community conservation programs with funding through the America the Beautiful Challenge (ATBC). The ATBC vision is to streamline grant funding opportunities for multiple federal agencies and the private sector. In year one, the National Fish and Wildlife Foundation (NFWF) will award approximately \$85 million to advance the initiative. MDC developed a coordinated and strategic approach with partners to submit the following ATBC grant applications:															
• Remnant Prairie Conservation: This project will restore and manage remnant prairies across the Missouri Osage Plains.															
• Community Treesilience: Forestry partners will expand the successfully implemented Treesilience program throughout seven urban municipalities.

Under the recently passed Federal Infrastructure Investment and Jobs Act (IIJA,) a significant amount of funding has been directed to the U.S. Forest Service to partner with states to complete work identified in approved Forest Action Plans. Missouri's Forest Action Plan is incorporated as part of our Comprehensive Conservation Strategy (CCS). Missouri's allocation of funds will come through the U.S. Forest Service's spending authorities and thus be concentrated in four areas. Those areas are state fire assistance (\$297,661), community forestry (\$229,500), private land forest stewardship (\$229,500), volunteer fire assistance grants (\$102,180), and forest health (\$60,000). This New Decision Item is a request for increased spending authority to allow the Agency to receive and spend these new funds.																
The volunteer fire assistance funds must be matched 50/50, but a waiver of match requirement can be requested for the remaining funds received under this bill. Per the U.S. Forest Service, MDC can expect allocations in similar amounts for at least the next five years. The above funds (\$918,841 in total) are dollars over and above the current grant amounts received by the Missouri Department of Conservation from the U.S. Forest Service in these programs.																
Shipping Cost Increases - 1400007

Funding is needed to continue operations due to the shipping cost increased from the new statewide shipping contract. This funding will allow operations to continue including: the George O. White State Forest Nursery operations with seedling trees to Missourians; delivery of Department of Conservation United States Postal Services mail, shipping, and packages; shipping of Xplor and Conservationist magazines; shipping of regulations booklets; and regional outreach mailings. In addition, free tree distribution programs like the annual distribution of trees to every Missouri 4th grade student for Arbor Day will continue.

Under the recently passed Federal Infrastructure Investment and Jobs Act (IIJA,) a significant amount of funding has been directed to the U.S. Forest Service to partner with states to complete work identified in approved Forest Action Plans. Missouri's Forest Action Plan is incorporated as part of our Comprehensive Conservation Strategy (CCS). Missouri's allocation of funds will come through the U.S. Forest Service's spending authorities and thus be concentrated in four areas. Those areas are state fire assistance (\$297,661), community forestry (\$229,500), private land forest stewardship (\$229,500), volunteer fire assistance grants (\$102,180), and forest health (\$60,000). This New Decision Item is a request for increased spending authority to allow the Agency to receive and spend these new funds.														
The volunteer fire assistance funds must be matched 50/50, but a waiver of match requirement can be requested for the remaining funds received under this bill. Per the U.S. Forest Service, MDC can expect allocations in similar amounts for at least the next five years. The above funds (\$918,841 in total) are dollars over and above the current grant amounts received by the Missouri Department of Conservation from the U.S. Forest Service in these programs.

Funding is needed to continue operations due to the shipping cost increased from the new statewide shipping contract. This funding will allow operations to continue including: the George O. White State Forest Nursery operations with seedling trees to Missourians; delivery of Department of Conservation United States Postal Services mail, shipping, and packages; shipping of Xplor and Conservationist magazines; shipping of regulations booklets; and regional outreach mailings. In addition, free tree distribution programs like the annual distribution of trees to every Missouri 4th grade student for Arbor Day will continue.

The Recovering America's Wildlife Act (RAWA) will fund proactive, voluntary efforts led by states, territories, and tribes to address the nation's looming wildlife crisis and to prevent species from becoming endangered. RAWA will provide \$1.39 billion annually to catalyze on-the-ground, collaborative efforts to restore essential habitat and implement key conservation strategies, as described in each state's Wildlife Action Plan.														
The U.S. House of Representatives passed RAWA (H.R. 2773) with bipartisan support. The U.S. Senate is now considering the Senate RAWA Bill (S. 2372), with bipartisan passage expected to occur this legislative session. Under current legislative language, RAWA funds shall be used for the purpose of avoiding the need to list species, or recovering species currently listed as a threatened species or endangered species, under the Endangered Species Act of 1973 or under State law, with specific directed use to:														
*Implement State Wildlife Action Plans (the Missouri Comprehensive Conservation Strategy (CCS) to recover and manage Species of Greatest Conservation Need (SGCN) and their habitats,														
*Enhance the CCS,														
*Assist in the recovery of state and federally listed species, as well as species proposed and petitioned for listing

Funding is needed for the following community conservation programs: (1.) Backyard Habitat Initiative - The funding is needed for a pilot program that helps provide plants, seed, and technical assistance to Tier 1 Community Conservation geographies through partnerships. (2.) Conservation Equipment Program - Funding is needed to restart an equipment grant program for specialty equipment such as native grass drills and seeders for partners to address the tiered approach habitat conservation. The funding will be targeted toward priority geographies, COAs, and QRLs to allow landowners to implement planning recommendations from staff and partners. This will result in an increase in acres impacted within priority geographies, COAs, and QRLs.

Appropriation is needed to expand habitat and community conservation programs with funding through the America the Beautiful Challenge (ATBC). The ATBC vision is to streamline grant funding opportunities for multiple federal agencies and the private sector. In year one, the National Fish and Wildlife Foundation (NFWF) will award approximately \$85 million to advance the initiative. MDC developed a coordinated and strategic approach with partners to submit the following ATBC grant applications:														
<ul style="list-style-type: none"> • Remnant Prairie Conservation: This project will restore and manage remnant prairies across the Missouri Osage Plains. • Community Treesilience: Forestry partners will expand the successfully implemented Treesilience program throughout seven urban municipalities.

The Recovering America's Wildlife Act (RAWA) will fund proactive, voluntary efforts led by states, territories, and tribes to address the nation's looming wildlife crisis and to prevent species from becoming endangered. RAWA will provide \$1.39 billion annually to catalyze on-the-ground, collaborative efforts to restore essential habitat and implement key conservation strategies, as described in each state's Wildlife Action Plan.														
The U.S. House of Representatives passed RAWA (H.R. 2773) with bipartisan support. The U.S. Senate is now considering the Senate RAWA Bill (S. 2372), with bipartisan passage expected to occur this legislative session. Under current legislative language, RAWA funds shall be used for the purpose of avoiding the need to list species, or recovering species currently listed as a threatened species or endangered species, under the Endangered Species Act of 1973 or under State law, with specific directed use to:														
*Implement State Wildlife Action Plans (the Missouri Comprehensive Conservation Strategy (CCS) to recover and manage Species of Greatest Conservation Need (SGCN) and their habitats,														
*Enhance the CCS,														
*Assist in the recovery of state and federally listed species, as well as species proposed and petitioned for listing

Funding is needed to continue operations due to the shipping cost increased from the new statewide shipping contract. This funding will allow operations to continue including: the George O. White State Forest Nursery operations with seedling trees to Missourians; delivery of Department of Conservation United States Postal Services mail, shipping, and packages; shipping of Xplor and Conservationist magazines; shipping of regulations booklets; and regional outreach mailings. In addition, free tree distribution programs like the annual distribution of trees to every Missouri 4th grade student for Arbor Day will continue.

DEPARTMENT OF CONSERVATION
Section 6.620 – Conservation Business Services

Page 189

Description: This section includes funding for Conservation Business Services, which includes operational excellence, policy coordination, financial services, information technology support, fleet management, infrastructure administration, and facilities operation and maintenance.

Legal Basis: Article IV, Sections 40 – 46, MO Constitution

Funding Source: Conservation Commission Fund (0609)

FY 2023 GR W/H: N/A

CORE ADJUSTMENTS

DEPARTMENT:

Core reduction: (\$552,500) Other Funds E&E reduction of one-time funding added in the FY 2023 budget for equipment

GOVERNOR:

Same as Department – no additional core changes

HOUSE:

Same as Department – no additional core changes

SENATE:

Same as Department – no additional core changes

CONFERENCE:

Same as Department – no additional core changes

The department is requesting funds for customer experience and employee engagement program improvements. Enhancements include a customer data management system, consolidated customer contact system, and employee engagement platform. The department can consolidate customer information from disparate systems to improve accuracy, reduce duplication and corrections, improve program analysis, and support fact-based decision making about products and services. The enhancements will reduce the cost of maintenance and data sharing between branches. Implementation of this project will take multiple years. For FY24, the major focus will consist of data clean up, data management project costs, customer management system discovery, feasibility analysis, system selection, call center implementation, and development of an employee platform.

An additional \$5.81 million is being requested to fund a potential labor market increase (5%) to support the Department of Conservation's market based pay system, a years of service increase to create movement into the appropriate salary ranges, and performance pay. Additionally, the Department of Conservation is regularly reviewing jobs to ensure proper placement within the appropriate labor market.

Funds are needed to continue operations of the Conservation Employees' Benefits Plan (CEBP or Plan) that includes health insurance for MDC employees. The CEBP Board of Trustees works with the Plan's consultant each year to review claims expense and Plan revenues to project costs for the upcoming plan year. As a result of this analysis, the Board voted to increase health insurance premiums by 10% for calendar year (CY) 2023. In addition, the Board voted to realign cost ratios for retirees based on the recommendations of the consultant.														
This decision item assumes the same premium adjustment will be needed in CY24 in addition to the realignment of cost ratios for retirees.
